

Drag the sliders to the left or right based on your spending and lifestyle patterns to compare your footprint to the UK average and other countries around the world. [Try to cut your footprint by 10% in 2010.](#) We should cut our impact much more by 2050.

All figures are shown in tonnes CO2e (tonnes of equivalent carbon dioxide - the amount of greenhouse gases emitted in total). The data was provided by [Small World Consulting](#).
