Nomenclature

w The weight vector

1 Introduction

You probably found all the files from [Gunn \(2001\)](#). Table 2 illustrates the results of my work ([Gunn and Lovell, 2011](#)).

| Training Error | Testing Error |
|----------------|---------------|
| 0 | ∞ |

Table 2: The Results

Figure 1 shows why this is the case.

Figure 1: A colourful picture.

This page shows you a subfigure example in Figure 2.

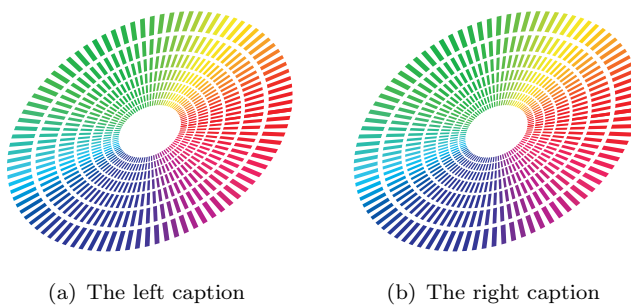

Figure 2: A doubly colourful picture.

Example of Equation 1.

$$y = ax^2 + bx + c \tag{1}$$

2 Conclusions

It works.

Acknowledgements

Thanks to no one.
